

Foreword

The Society of Nepalese Healthcare Professionals in Europe (SNHPE) is a non-profit, non-political professional organization dedicated to promoting the professional growth and development of Nepalese healthcare professionals practicing across the EU, EEA, and EFTA countries. The Society is committed to fostering academic excellence, research, collaboration, and the exchange of knowledge among healthcare professionals, while contributing to improvements in healthcare both within Europe and beyond.

It is with great pleasure that SNHPE launches the European Journal of Nepalese Healthcare Professionals (EJNHP), a peer-reviewed journal that will serve as a platform for the dissemination of quality research, evidence-based practice, healthcare policy, education, and innovation. We hope that the journal will strengthen academic collaboration among Nepalese healthcare professionals worldwide and encourage meaningful contributions to global health.

On this significant occasion, I extend my sincere gratitude to all the individuals and organizations

whose invaluable support, dedication, and encouragement have made this initiative possible. I also offer my heartfelt congratulations and best wishes to the Editor-in-Chief (EIC), Associate Professor Kaushal Kishor Tiwari, the members of the Advisory Board, reviewers, the entire editorial team and the Executive Board Members of the Society for their commitment to establishing this important academic platform.

I wish the European Journal of Nepalese Healthcare Professionals (EJNHP) every success in fulfilling its mission and vision. May it flourish as a respected international journal that inspires excellence and strengthens the global community of Nepalese healthcare professionals for many years to come.

Sincerely,

Dr. med. Binaya Kumar Shrestha
Chairperson

Society of Nepalese Healthcare Professionals in
Europe (SNHPE)
